

Positioning Networks for Sustainability

Alicia Casey-McCall
Roxanne Elliott
Coleman Tanner

November 20, 2024

How do we create healthy communities?

Stewardship

How can our network share responsibility & ownership for advancing healthy in our communities?

Changing Mindsets

- Understanding Rural Health Networks
- Exploring the Relationship Between Stewardship & Rural Health Networks
- Practicing Adaptive Leadership

Building A Sound Infrastructure

- Understanding the Interplay of Form, Function & Financing
- Applying Governance as Leadership
- Assessing Strengths & Weaknesses Utilizing the Network Organizational Assessment Road Map
- Following the 9 Ps of Effective Meeting Planning

To help answer this question, we will explore these topics:

Impactful Actions

How can our network develop programs that have positive and lasting impact in our community?

To help answer this question, we will explore these topics:

External Environmental Scan

- Creating an Aim
- Identifying Opportunities & Threats

Strategic Plan

- Fostering Shared Understanding Using a Behavior Over Time Approach
- Setting Program Priorities
- Developing SMART Goals & Objectives

Sustainability

How can our network foster supportive relationships & generate financial resources?

To help answer this question, we will explore these topics:

Sustainability Planning

- Positioning for Sustainability
- Stewardship Focused Financing & Funding
- Friend raising

Communications

- Crafting Persuasive Messages
- Developing a Network Statement

Sustainability

How can our network foster
supportive relationships &
generate financial resources?

To help answer this question,
we will explore these topics:

Sustainability Planning

- Positioning for Sustainability
- Stewardship Focused Financing
& Funding
- Friend raising

Communications

- Developing a Network Statement
- Crafting Persuasive Messages

Objectives

SUSTAINABILITY

Practices

Framework

Background

Definition

When programs or services continue because they are valued and draw support and resources.

What Makes the Difference?

Chance of Sustainability

Are they tied?

Organizational Characteristics

Why do some programs sustain while others do not?

Conduct Study of Grantees

Positioning for Sustained Success

**Understand the dynamics
that influence sustainability**

Guiding Questions

- *Behaviors and strategies?*
- *Drivers of good outcomes?*

Objectives

SUSTAINABILITY

Framework

Background

Sustainability Framework 2.0[©]

ORGANIZATIONS WITH THE HIGHEST POTENTIAL FOR SUSTAINABILITY KEEP THEIR FOCUS ON:

- Strategic Purpose**

All partners have a clear vision of program goals, and their actions are aligned with the mission or connect to the core values of the participating organizations.
- Contextual Relevance**

The program adapts to the sociocultural, political, and economic environment, as well as trends and emerging issues.
- Practical Alignment**

The program provides a relevant solution in response to a demand and need expressed by the population of interest.
- Data Utilization**

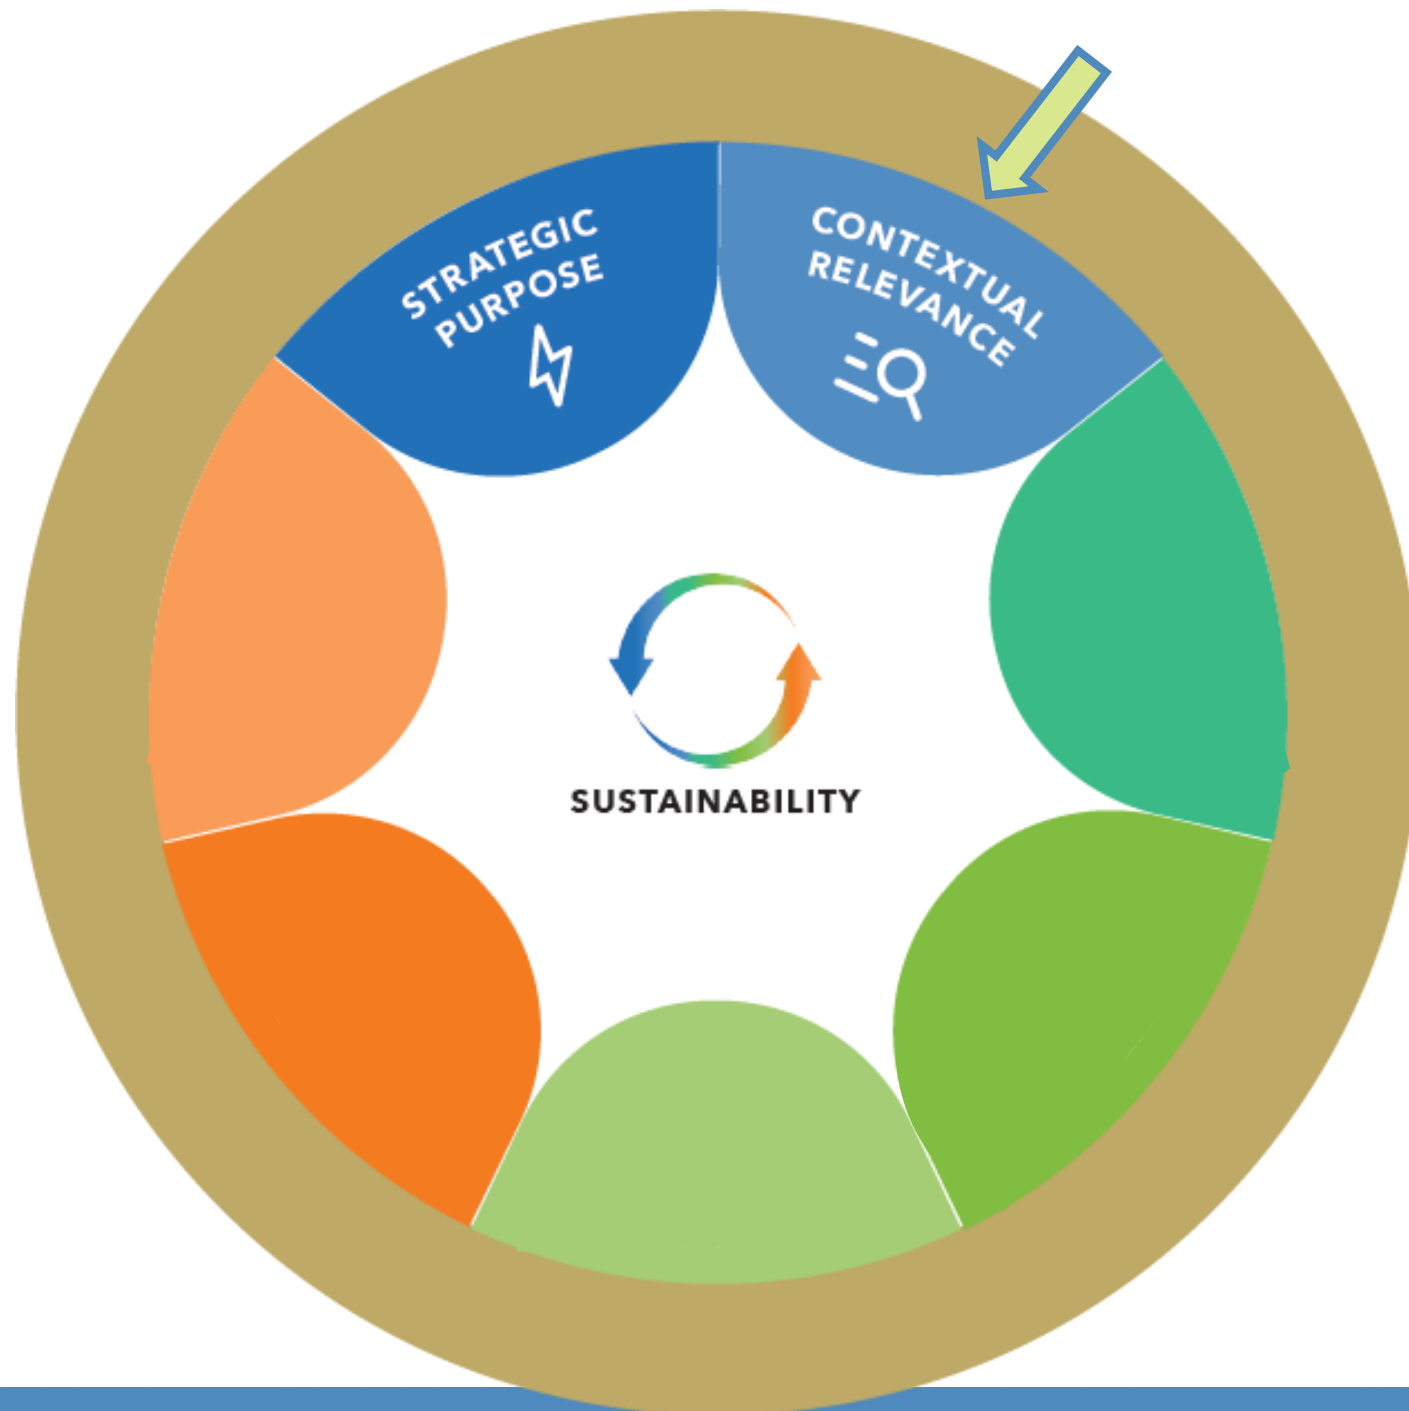

Organizations collect and analyze data to assess the program’s short-term impact and demonstrate its long-term value.
- Effective Communication**

Critical information is exchanged among participating organizations and populations of interest to create awareness and share successes of the program.
- Active Collaboration**

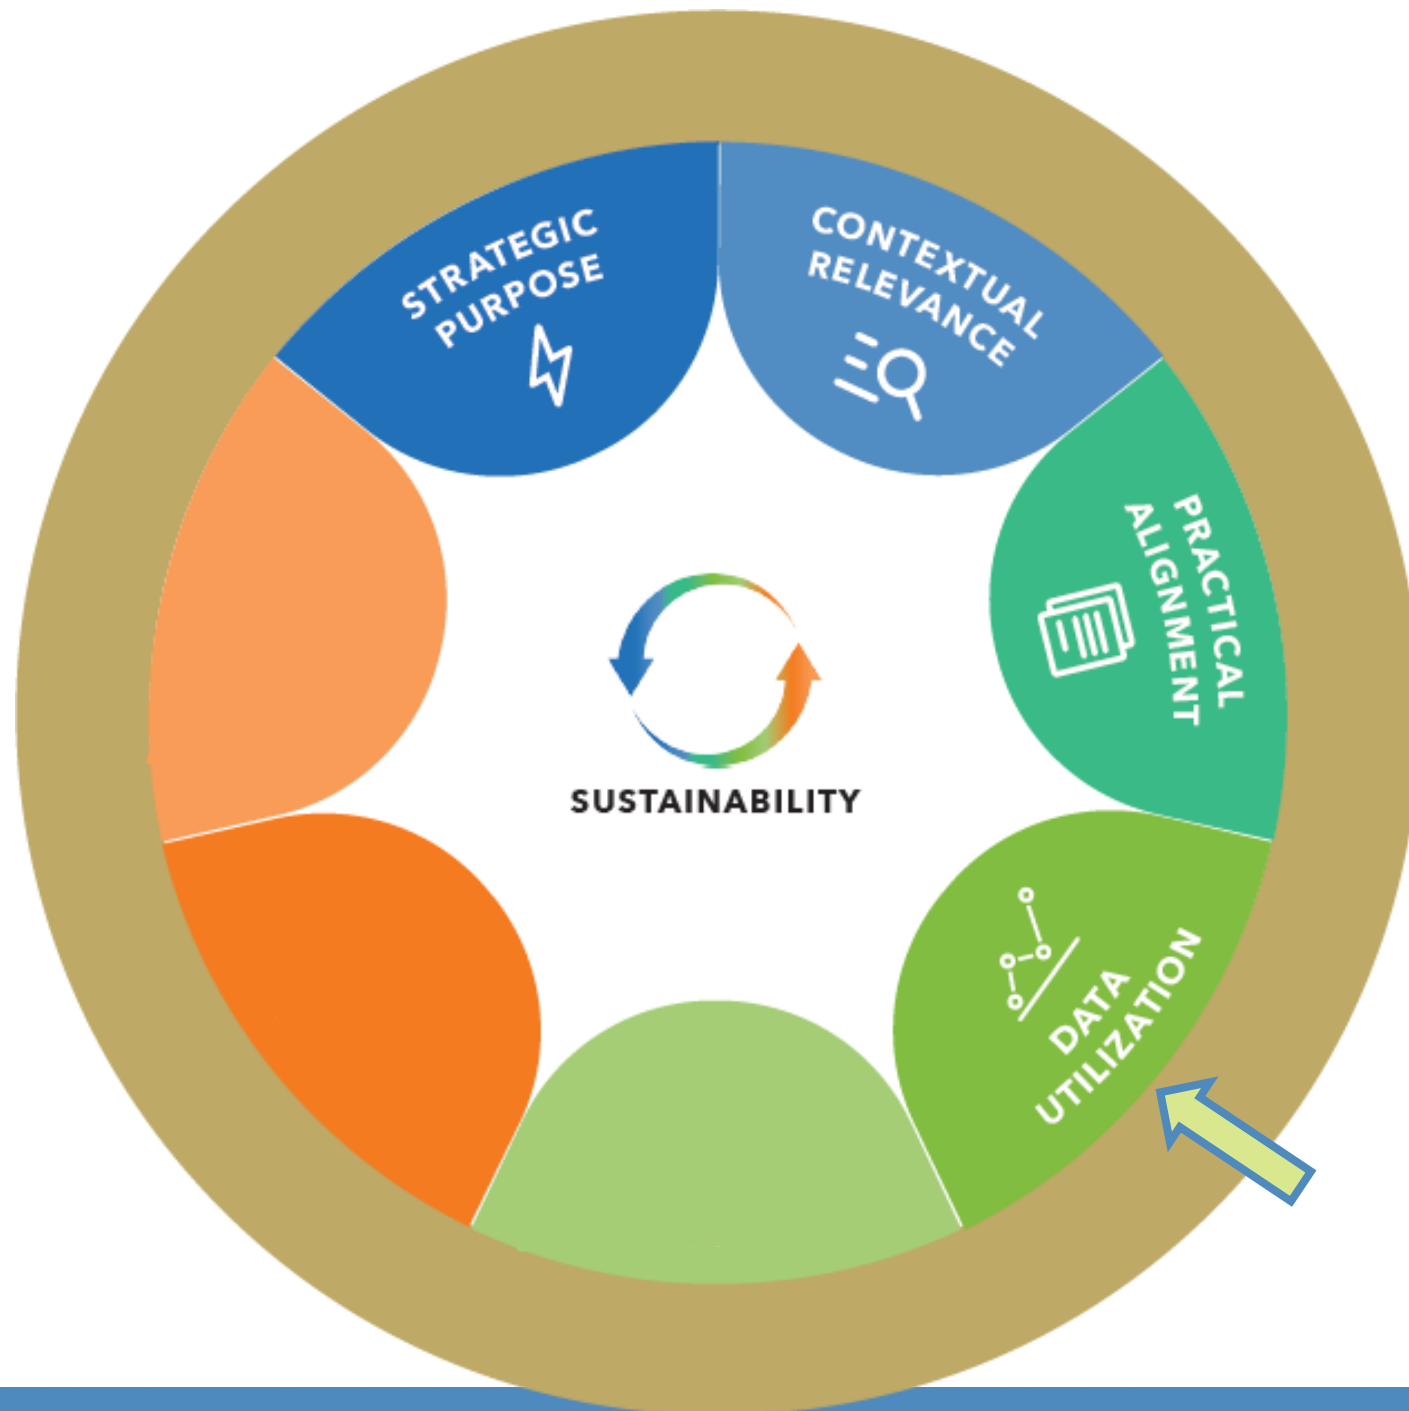

Partners share responsibility, risks, and rewards for the program.
- Visionary Leadership**

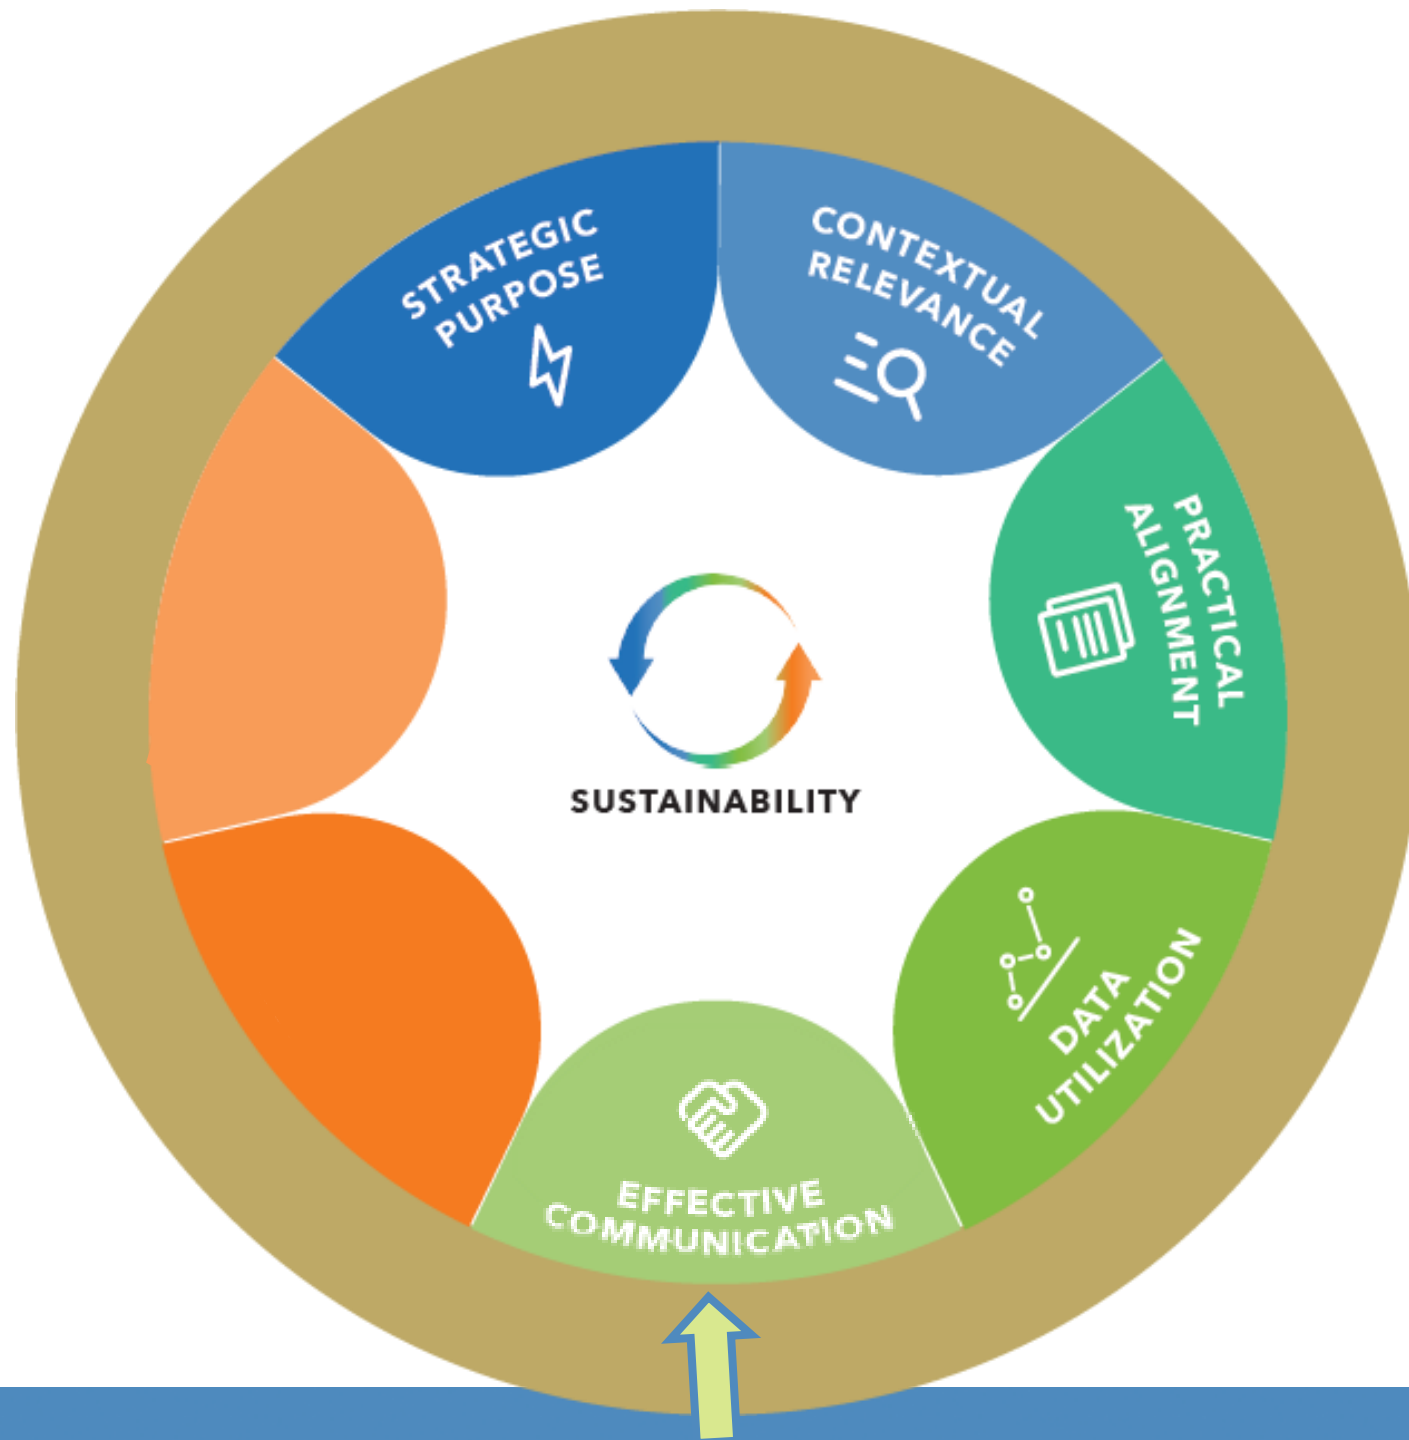

Someone that has strategic purpose for the grant, commitment to the desired community outcomes, and willingness to direct resources to sustain the effort.

Network and Interview Demographics

Interview network demographics

Established Network	6 prior to grant	1 upon grant award
Sustained Network	6 sustained	1 did not sustain (501c3; longstanding network)
Structure	4 were 501c3 organizations	3 had backbone organizations/ fiscal agents

Network maturity

Timeframe	Number of networks established (Sourcebook)	Number of networks sustained (PIMS)	Number of networks did not sustain (PIMS)
1979-1994	2	2	0
2002 - 2014	12	11	1
2015 - 2017	9	9	0
2018	6	5	1
2019 - 2020	12	10	2
Blank	3	3	0
TOTAL	44	40	4

Top Three Success Factors

Strategic Purpose

```
graph TD; A[Strategic Purpose] --- B[Co-designing mission and vision]; A --- C[Transparency]; A --- D[Trust and strengthened relationships];
```

Co-designing mission and vision

Transparency

Trust and strengthened
relationships

Top Three Success Factors

Visionary Leadership

Champion that can motivate
community

Belief that change can happen

Lead implementation

Top Three Success Factors

Effective Communication

Create open environment for listening and discussions

Communicate consistently about data, reports, and project updates

Find shared meaning and standards through communication plan

Top Three Challenging Factors

Active Collaboration

Multiple roles and potentially competing priorities

Awareness of misaligned mission/visions

Lean on governance documents

Top Three Challenging Factors

Data Utilization

Partner resistance, reluctance

Interoperability challenges

Co-design data collection plans
and dashboards

Top Three Challenging Factors

Effective Communication

Staffing turnover

Partners in crisis mode

Plan to address conflict resolution

Governance and Infrastructure

31

Fiscal agent/
backbone
organizations

7

501c3
organizations

MOU Components

- Data sharing and reporting
- Meeting attendance
- Membership dues and in-kind contributions
- Sharing/exchanging funds
- Other components
 - Termination details
 - List of responsibilities
 - Referrals to program
 - Support for network activities
 - Mission/vision statements

Formal versus Informal Structure

- Mixed feedback
- Two of four 501c3 organizations self-identified as a formal network
- Two self-identified as formal and informal
- Even networks with formal structures in place self-identified as informal

Networks prefer flexibility, consensus-building, and trust for decision-making

Use of Funds and Fund Diversification

Revenue

14 charged membership dues or other fees

Sharing Funds

2 of 7 interviewed shared funds with partners

5 of 7 used funds to support program needs and shared resources

Sustainability

3 of 7 interviewed sustained on grant funds only

1 of 7 used data to leverage support for position

Grantee Success Story

Established a Ways and Means Committee, which resulted in:

- Donations from local foundation
- Hospital funds
- Discretionary funding from state and federal government
- State grants
- Billing for services (CHW income \$30,000/month against budget \$10,000/month)

Conclusions

Networks

- Similar but unique
- Nuances and contextual relevance impact function and sustainability
- Keys to success – member engagement, shared mission/vision, communication, trust building
- Challenges – partner engagement, data collection, data sharing, communication

Structure and Governance

- Most networks have fiscal agent/backbone organization
- MOUs can be helpful if detailed and used in practice
- Leaders prefer informal processes and relationships
- Consensus building and trust are essential for sustainability
